## Multisensory Connection

➔ Give your student the following student word list along with 1 blue and 1 yellow colored highlighter, marker, or colored pencil. Then, read each word out loud. Prompt your student to repeat the word, tapping each sound as it's read.

Before filling in the correct spelling for /ch/, prompt your student to highlight the letter that comes right BEFORE the /ch/. Highlight consonants (and long vowels) in blue and short vowels in yellow before deciding to use CH or TCH to complete each word.

### Example: Munch

*Optional: If you use finger tapping with your student already, ask your student to tap out each sound with their non-dominant hand as they touch the sound in each word with their dominant hand.*
