Instructor-Guided Practice

➔ “X” Marks the Spot Game

Directions: You are on the hunt for buried treasure! Find the buried treasure by searching in different areas on the desert island until you find the right spot.

1. Prior to starting, the teacher decides which box (“quadrant”) to hide the buried treasure in.
2. Ask your student to pick a quadrant to start digging. Read the corresponding word to your student, and ask them to spell it syllable-by-syllable on a piece of paper.
3. If they get the word right, they can “dig” in that space for the treasure by placing a check mark on that quadrant. If it is wrong, use guided instruction to help them correct the word in order to search in that space.
4. If they’ve selected the quadrant you’d chosen to hide the treasure, they win! If they didn’t, ask them to choose another quadrant, and gameplay continues until the treasure is found.
