Sticky Units of Sound: Mixed Review

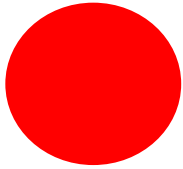

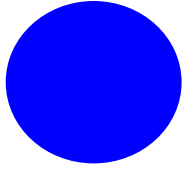

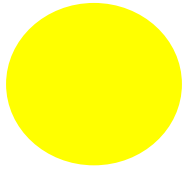

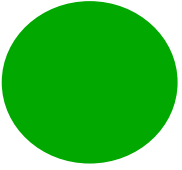

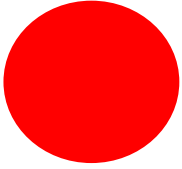

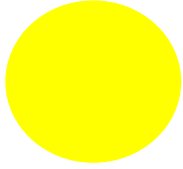

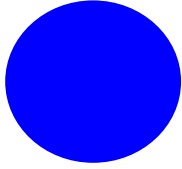

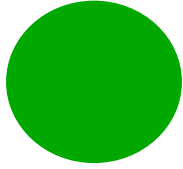

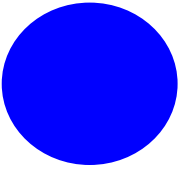

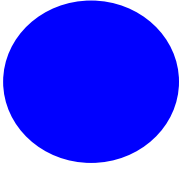

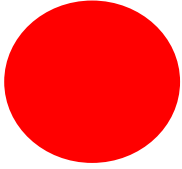

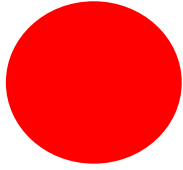

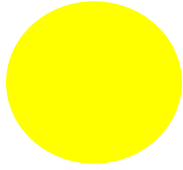

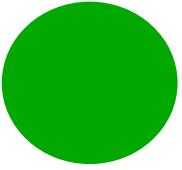

Game: Unit “Uno”

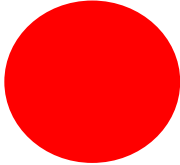

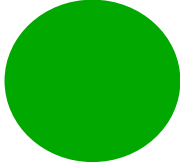

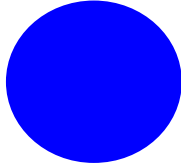

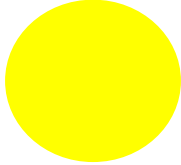

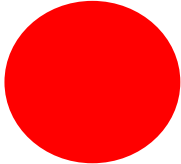

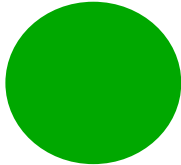

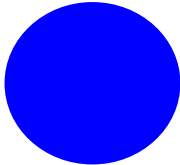

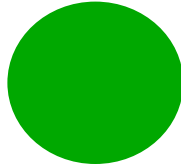

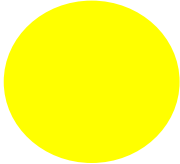

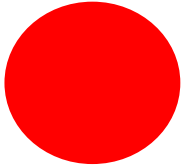

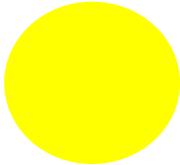

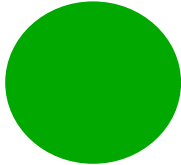

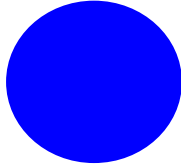

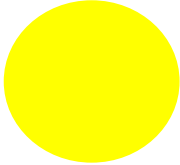

- **Object:** Run out of cards first!
- **Set up:** Shuffle and deal 5 cards to each player. All remaining cards are placed in a pile with one card flipped face up to make a discard pile.
- **Game Play:** Player 1 must discard from their hand by matching either the color or the same sticky unit on the card they are discarding to the card on the top of the discard pile. They must also read the word out loud as they discard it. Once they have discarded, gameplay moves in a clockwise rotation to Player 2. Gameplay continues until someone runs out of cards. If a player cannot match a card from their hand, they must pick from the pile. If that card cannot be discarded, gameplay moves to the next player.
- **Special Cards:** There are some special cards in the deck! If you discard a “skip” card, the next player loses their turn (note, this card must match either another skip card or the color of the card on top of the discard pile). A “wild” card can be discarded at any time and allows the player to change the color of the discard pile. A “draw two” card can be discarded if it matches another draw two card or the color. When this card is laid down, the next player misses their turn and must pick two cards from the deck.
